## Final Meeting of the P.-T.A. for the Season

The last meeting of the P.-T.A. for the season was held on Monday, June 20th at the home of Mrs. M. R. Leonard. The reports of the Secretary, Treasurer and Hot Lunch Committee were read and accepted. After the adjournment of the meeting a very pleasant time was spent in bridge. A dainty lunch served by the hostess brought a pleasant evening to a close.

Following are the reports as submitted:

### TREASURER'S REPORT

The following work has been undertaken and carried out during the year:

The first meeting of the year was held on Sept. 14th, 1932.

The Treasurer's report was read and showed a balance of \$48.97 from previous year.

The following officers were elected and have carried on the work during the year:

President—Mrs. Lewendon.  
1st Vice-Pres.—Mrs. Weins.  
2nd Vice—H. McCullough.  
Sec'y—Miss I. MacLeod.  
Treas.—Miss L. Spencer.  
Directors—Mrs. Taylor, Mrs. Jones, Mr. Johnston and Mr. Lewendon.

It was decided to reduce the membership fee for the year to 25c. There 22 paid up members.

The program committee, consisting of Mrs. MacLeod and Mrs. Weins, arranged interesting and varied programs for the entire year.

The P.-T.A. served cocoa to the school children during the winter months. Mrs. Mason was hired to serve the lunches at a charge of 50c a day.

A donation of \$15.00 was given to the School Fair.

The P.-T.A. put on their annual picnic for the school children at the river.

During the year two dances were put on in the school to raise funds for Hot Lunches and School Fair donation.

### TREASURER'S REPORT

## Juanita Beach Camp Opens on Bow River

Miss Hilton Directress—Camp of 60, Including Leaders

(Special to the Resource)

Mrs. Mackie's dinner gong officially opened Camp Juanita on Wednesday at 12 o'clock noon. The number for dinner was not large but as cars kept continually coming, almost the full number was there for supper.

Mrs. Mackie is the business manager this year as she has been for the past two years and under her careful management the girls were able to buy two new tents for this year. The camp is very fortunate in having such capable leaders and managers.

Mrs. Northcott is again Camp Mother.

Miss Olive Hilton of Calgary is the directress. Business Manager is Mrs. Mackie of Arrowwood. The Sports Officer and Swimming instructor is Miss Pattison of Calgary.

The Leaders include: Miss Dyres of Baintree, Miss Thomas of Brant, Miss Irving, and Miss Fisher of Vulcan, Mrs. Walker of Carmangay, and Mrs. Love of Vulcan.

There are forty-eight girls and these have divided into five Indian Tribes. At time of

## BASKETBALL

The High School basket ball game at Milo on July 6th, started out even. The referee used the whistle constantly during the first quarter and neither side could get ahead. At the end of the first half Milo was 2 points ahead. Arrowwood decided to show their colors which they certainly did throughout the finish of the game.

Jean's high curved shots scored basket after basket. Irma Army was also a star forward making some wonder- (Continued on page 4)

going to press, they had not yet chosen their tribal names nor tribal chiefs, though the Big Brave, Miss Ruth Northcott of Milo, had been chosen. The editor of the camp paper is Miss Nelsie Peterson of Milo.

It is interesting to note how many of the girls earned their own way as groups, those doing so were the girls from Arrowwood, Brant, Vulcan, and Milo.

Sunday afternoon and evening has been declared as visitor's day. Any one wishing to do so may visit the camp at that time.

The girls are planning on being present en masse in the United Church on Sunday morning.

The towns represented at the camp are: Arrowwood, Brant, Brooks, Carmangay, Gleichen, Milo, and Vulcan.

## W. F. Jennijohn Gives District Publicity with New Craft

Much publicity was given this district in a daily press report appearing in the Calgary Albertan of Saturday last, under the heading of "Alberta's Farmer Boatbuilder Constructs 40 Passenger Craft." The boat builder is W. F. Jennijohn whose construction along this line is known by everyone in the community. The report says:

"Alberta farmer boatbuilder has constructed another craft and Friday evening hundreds of Calgary residents viewed the imposing vessel, carried on a specially-built trailer, as its entourage stood on a city street.

"W. F. Jennijohn said that this craft was probably his best work. His vessels have been constructed under unusual difficulties on his farm midway between Vulcan and Arrowwood. None have been tested until they have been carried scores of miles to a lake. None has proved a failure. The new vessel is 38 feet long with a 10 foot beam. She is destined for Sylvan Lake where she will ply this summer with a sister ship. The Maple Leaf, constructed by Mr. Jennijohn some years ago.

"Strangely enough, Mr. Jennijohn has learned the most of what he knows about shipbuilding since he went to his inland farm. Taking up the work first as a hobby he discovered that there was a demand for the craft he constructed and that they were suitable for use on Alberta lakes.

"Vessels constructed by Mr. Jennijohn are not toys. His latest ship has accommodation for 40 passengers. It is powered with a six-cylinder motor that will give it a high cruising speed with economical operation. All ribbing has been done in oak and the ship has been constructed for long service. It is painted red and white.—Vulcan Advocate

## School Notes

Miss Victoria Barron who attended school here this term, returned to her home at Langdon on Thursday.

Jack Clark also returned to his home near Didsbury on Saturday.

High School Students are naturally bright. Their aptitude in digesting definitions, formulae, etc., can be attributed to the ceaseless pounding of diligent teachers. If you don't believe that they are brilliant take a glance at the following answers, gleaned from scrap paper used during the recent examinations.

King Alfred Conquered the dames.

A dead man is a corp, a dead woman is a corpse.

The plural of spouse is spice.

The liver is situated south of the stomach.

(Continued on page 3)

## John Leslie Retires

1. John Leslie. 2. E. E. Lloyd.  
3. L. B. Unwin. 4. E. A. Leslie.

John Leslie, Vice President of Finance and Treasurer of the Canadian Pacific Railway, after more than 53 years of service with that Company and its subsidiaries will retire from office under pension rules, on July 1st, according to an announcement made by E. W. Beatty, Chairman and President. Mr. Leslie will be succeeded by Mr. E. E. Lloyd, presently Comptroller of the Company. L. B. Unwin, Assistant Comptroller, will be appointed Comptroller and E. A. Leslie, Assistant Comptroller, will be appointed Deputy Comptroller. "The Directors and myself desire to record our appreciation of Mr. Leslie's long, loyal and efficient service", Mr. Beatty said in announcing Mr. Leslie's retirement. Mr. Leslie has given a lifetime to railway work in this country. He became a railroader as a boy of 16, when in March, 1877 he entered the service of the Toronto Grey & Bruce Railway, as a junior

clerk in their Toronto office. He became Vice President and Comptroller, Montreal in January 1926, and Vice President in charge of Finance, and Treasurer on February 10th, 1928.

Mr. Lloyd, who succeeds Mr. Leslie as Vice President and Treasurer commenced his railroad career with the Canadian Pacific at Winnipeg in December, 1887, when he became a clerk in the Stores Department. He became Auditor of Stores & Mechanical Accounts at Montreal, in December, 1904; and after holding different posts in that department, became Auditor of Disbursements in March 1918; Assistant Comptroller in February 1921, and Comptroller in February 1928.

Mr. Unwin, who succeeds Mr. Lloyd, was first a clerk in the office of the Assistant Superintendent at Chapleau, Ontario, in 1908 and served at Chapleau, White River and Schreiber until the out-

break of the world war. He early answered the call to arms by enlisting in the first Contingent. Mr. Unwin was awarded the Military Cross, earned his majority, being demobilized with that rank in April, 1919. On July 2, 1926, he was made Assistant Auditor of Miscellaneous Accounts, and on February 10th, 1928, he was appointed Assistant Comptroller.

E. A. Leslie, who becomes Deputy Comptroller is a son of John Leslie, and followed his distinguished father into the service of the Canadian Pacific Railway Company. In 1912 he succeeded in winning a Canadian Pacific scholarship at McGill University, and became a student of transportation. He graduated in 1916 with a bachelor of science degree. Mr. Leslie immediately enlisted with the Canadian Artillery, and after serving in England and in France, was demobilized in May 1919 with the rank of Lieutenant. July of the same year found him back in harness with the Canadian Pacific as clerk in the General Managers' office in Montreal. Mr. Leslie was promoted to the post of Assistant Comptroller in February, 1926.

## A Worthwhile Enterprise

The third annual district camp is being held at the bridge. It is not local for members from surrounding points are registered. But its promotion is largely local and much credit is due to the citizens of Arrowwood for its existence.

The religion of Jesus has since outgrown buildings. Lightfoot, we believe, is responsible for the statement that we do not hear of buildings being dedicated to the worship of Jesus before the third century. During the days of the Reformation the dales of Scotland gave their protection to worshipping covenanters and Westley shocked England with his field preachings. Later the American Presbyterian Church was to conduct revival services in out-of-the-way places under canvas and the system of camp meetings was started.

It is within the memory of most of us when a minister took a few of his young people to the lake shore for the study of the Bible and Missions. The following year it was repeated. Then others look it up until today the American continent literally teems with schools of religion sheltered under canvas or in huts. In Alberta the co-operative R.E.C.A. are promoting such work at fifteen different centres and at some points the camps run continuously from July till the middle of August. The Baptist people have their own school at Gull Lake.

A branch of this work is the Schools of Religion carried on for ministers and advanced workers in religion. At the present time the Anglicans are gathered for study at Banff and toward the last of August the United Church will hold its school at the college in Edmonton.

GRANT FLEMING, M.D., — ASSOCIATE SECRETARY

## Health and age

During the course of our lifetime we change. Change is inevitable because we first grow gradually and develop into maturity; then later we begin to fade. Change is part of life.

There is no reason why, during all these years of changing conditions, we should not enjoy health. We can, providing we are willing to recognize the change which occur, and make the necessary effort to adjust ourselves to these changes.

Throughout life there are certain health requirements that do not change. Proper food, sufficient rest, exercise and such things are required at all ages. However, the food requirements of a young baby are not the same as those of a working man, nor is the amount of sleep required the same. The general need continues, but it must be adapted to the age and occupation of the individual.

At certain ages there are disease hazards. Whooping cough is a serious menace to the young baby. Tuberculosis takes its heaviest toll in early adult life. Cancer ravages the adult group. It is obvious that at these various ages special attention must be given to meet the conditions which are particularly serious at such ages.

A difficult age is the one when we begin to realize that our bodies are no longer capable of doing readily the things which were formerly done with ease. We do not like to think that we are growing old, and that we have passed the height of our physical powers. When this time comes it is necessary to make the habits of life such that they are within the capacity of the body. It means taking things a little slower, with longer periods for rest, and the avoidance of heavy or sudden physical strains. The growing

boy cannot do what the full grown man can do, and the older man should not attempt what the younger adult can do.

A man may be only as old as he feels, and there is no reason why he should be depressed because he is growing older. However, no matter how young he feels, it is the part of wisdom for the older man to realize that his body is not as young as it was. If he will do that he may look forward to many useful and happy days.

The older person requires less food. More rest is needed. Sudden physical strains are to be avoided. Things should be done more quietly and deliberately. The golden rule is moderation in all things. Harm comes from excesses, whether in one or many things. Take the years as they come, and make them healthy, happy years by adjusting the manner of living to the changing body.

From the beginning of life, the heart must continue to function if life is to be maintained. The existence of every part of the body depends upon the blood which is brought to it by the pumping action of the heart.

It is obvious that all parts of the body will suffer if the heart fails to function normally. The health of the body as a whole is closely related to the efficiency of the heart.

When the child is born he may not have a sound heart. The condition known as "blue babies" is due to defective structure of the heart. Babies with poorly formed hearts do not a rule survive, and when they do they require special care. Among the children born with perfectly formed heart there are some who later develop or acquire some abnormal heart condition. The disease of the heart in children is serious. It seems as if the undevelop-

ed heart of a child is not able to withstand the stresses and strains which can be met by the mature adult heart.

It is also to be remembered that in childhood rapid growth goes on and this makes an extra demand upon the heart. At the same time the heart itself is developing into a large adult organ. For these reasons it is obvious that during childhood the heart needs to be protected from those conditions which may damage this vital organ. Children with heart disease must be guided so that their lives will be conducted with more ease than is the life of the normal child. Greater care must be taken as regards food, fresh air and sunshine.

We all agree that it is much better to prevent than to cure. In order to prevent heart disease, we must eliminate as far possible the conditions which lead to it. Because rheumatic fever is the outstanding cause of heart disease in children, great progress in the prevention of rheumatic fever. This means the treatment of diseased tonsils, teeth or other parts. Attention must be given to general health through proper food; plenty of fresh air and sufficient rest. It is by building up a strong and healthy body and by giving prompt attention to any abnormal conditions which arise that we may hope prevent disease in childhood and bring the child into adult life with a sound body.

Growth of all crops in western Canada is now vigorous and well advanced for the time of year, according to the latest weekly survey made by the Canadian Pacific Railway's agricultural department, and crop prospects in the West as a whole are encouraging.

Members of the British party touring the Dominion under the auspices of the British Columbian Government, arrived at Montreal aboard the Duchess of Bedford, travelled across Canada by Canadian Pacific rail and lake steamship, stopped over at Banff and will spend between June 15 and July 2 in British Columbia.

Delta Gamma, one of the most important Greek Letter organizations on the continent, is holding its annual convention this year at the Empress Hotel, Victoria, June 27-July 1. Stopping over at Banff, a Canadian Pacific special will carry delegates to the Pacific Coast from Chicago, while Canadian members from Montreal, Toronto and Edmonton will join the main group at Victoria.

If early promise is fulfilled, the Annapolis Valley should this year produce an even larger yield of apples than in 1931 when the total crop was close to a million and three-quarters barrels, is the opinion of leading fruit men of Kentville, N.S. The bloom this year lasted over ten days and attracted visitors by the thousand from Eastern Canada and the United States.

Miss Constance Regan, Middleburg, Va., established a record for women anglers on the Tobique River, New Brunswick, recently, when she took a 27½ lb. Atlantic silver salmon, the largest ever caught with a fly by a woman on that river. The record salmon taken in those waters by a male angler weighed 33½ lbs.

Canadian Pacific standard time is standard time the world over. Prior to 1883, every town and city had its own local time, based on the sun, but in that year the suggestion of Sir Sandford Fleming, chief engineer of the Canadian Pacific Railway, that the world should be divided into 24 sections, one for each hour of the day, and that time within each of these areas should be standard, was adopted all over Canada and the United States. In 1884 the plan was also adopted in Europe after a conference held at Washington.

Gilbert Miller, architect, of Youngstown, O., has a grouch against windows and doors in office buildings and summer homes. He found both too narrow to admit a moose head with an antler spread of five feet five inches taken from a monster he shot near St. Jovite last season. "It looks," he wrote to A. O. Seymour, general tourist agent, Canadian Pacific Railway, "as though both the head and myself will end up in the garage." But that is the kind of trophy to be got in the forests of Quebec. Big heads and lots of them. (849)

## Ready for Your Fields— —A New John Deere Disk Tiller with a Field Proved HEAVY-DUTY POWER LIFT

A new John Deere Disk Tiller is ready for your fields. Ready with all the field-proved features that made the old John Deere Tiller the choice of many farmers in this region—plus a heavy-duty power lift of the improved, long-lived John Deere type.

With this important improvement the John Deere Disk Tiller is as easy to handle as a tractor plow. Just a tug on the handy trip rope as you drive along sets the lift to work, raising the disks clear of the ground for turning, backing or transporting; another pull drops the disks to working position.

In addition to the time-saving, effort-reducing advantage of the John Deere heavy-duty power lift, you get the thorough work and great strength for which the John Deere Tiller has always been famous.

Stop in next time you are in town and get acquainted with the new John Deere Disk Tiller. We want to show you all of the features that mean satisfaction.

### Crossbreds vs. Purebreds in Producing Market Hogs

With the object in view of determining the comparative economy of pork production between purebred hogs of the Yorkshire, Tamworth, Berkshire, and Duroc-Jersey breeds and the respective crosses of the same breeds, six tests have been conducted, over a period of five years, at the Dominion Experimental Station, Lacombe Alta. For this purpose the fol-

lowing hogs were used in the trials: 68 purebred Yorkshires, 44 purebred Berkshires, 28 purebred Tamworths, 20 purebred Duroc-Jerseys, 17 Yorkshire-Tamworth crossbreds, 12 Yorkshire-Duroc Jersey crossbreds, 11 Berkshire-Duroc-Jersey crossbreds, 9 Berkshire-Tamworth crossbreds, and 9 Tamworth-Berkshire crossbreds, making a total of 160 purebreds and 58 crossbreds fed. The comparison of breeds as economic producers was studied at the same time, which accounted for there being only a comparatively small number of crossbred pigs used.

In selecting hogs for the experiment an endeavor was made to obtain hogs of fairly uniform size and at the same time obtain lots of as nearly the same blood lines as possible. There was some variation in the age of the respective lots, which was unavoidable.

Based on the five year average, the results of this test show the crossbred pigs to make an average daily gain per head of 1.113 pounds as contrasted with 1.023 pounds on the part of the purebreds, or an increase of more than 11 per cent in favor of cross breeding.

In "meal required to produce 100 pounds of gain" there is a marked difference in favor of the crossbred pigs, the average showing a saving of 34 pounds of meal on the crossbred lots over the purebred for every 100 pounds of gain produced.

Coming to the cost per 100 lbs gain, here again the crossbred lots make a better showing, with an average for all lots of 55 cents per hundred pounds again in favor of the crossbred lots.

While the crossbred pigs clearly excelled those of pure breeding it must be kept in mind that it takes purebreds on both sides of the pedigree in order to gain whatever benefit may accrue from the crossbreeding process. In order to obtain the best results in cross breeding, outstanding individuals must be obtained for foundation stock of the breed it is proposed to cross. The progeny of cross bred litters should be for market purposes only, and should never under any circumstances be retained for breeding purposes.

No legacy is so rich as honesty.—Shakespeare.

Happenings In and  
Around Arrowwood

Mrs. J. Mackie spent the week-end in Calgary.

Mr. and Mrs. C. E. Johnston are visiting at Langdon at Mrs. Johnston's home.

Miss Helen McInenly left on Thursday for Brooks where she expects to remain for a while.

Owing to the rain on Monday, Mossleigh sports have been postponed until Friday (tomorrow).

The soaking rains of the past week have been very beneficial to the growing crops. Mr. Lyle recorded 4.2 inches.

The Women's Institute annual picnic which was to have been held on Tuesday, has been postponed indefinitely.

Dr. and Mrs. J. W. Shipley, of Edmonton, were visitors at the home of Mr. and Mrs. R. R. Saunders Sunday.

**STOP!** Now is the time to look over your binder and combine canvas. Bring them in early and avoid the rush. Now is the time to repair them. C. L. Archambault.

Misses Theresa and Shirley McInenly, who have been attending school at Trochu, returned to their home in Buffalo Hill District on Friday.

Miss Gwendolyn Saunders returned to her home in Arrowwood last Friday. She has been in Vancouver for the past two years in St. Clair School for girls, where she took her grades 11 and 12.

Mr. H. McCullough was a visitor in Arrowwood for a few minutes on Sunday. The condition of the roads made it necessary for him to leave immediately for Edmonton.

Mr. Archie Harrison, who will be remembered as the jovial clerk in Chrestenson's store, returned to Arrowwood on Wednesday to spend his holidays.

Last Thursday afternoon Mr. and Mrs. R. R. Saunders went to Okotoks to attend the funeral service of the late E. W. Mahan, who died at Edmonton on June 27th, internment taking place at Okotoks.

Mr. and Mrs. P. L. Fike and Rev. and Mrs. C. L. Fike were visitors to the E. P. Ranch on Thursday. On Friday Mr. P. L. Fike and Rev. and Mrs. C. L. Fike left for Crossfield where they will visit a sister. P. L. Fike returned to Arrowwood last night by bus, and Rev. and Mrs. Fike will return to their home in Omaha, Neb., via Denver. This is the first time for 27 years that the brothers have met.

Dr. and Mrs. E. J. Leisemer were Calgary visitors Tuesday.

Miss Frances McInenly returned from Brooks on Saturday.

We are pleased to see Mr. N. Nissen is able to be in his store after an attack of the flu.

Miss Edna Beagle left this morning for Carlsland on a visit to her sister.

Miss Mary Dumka returned last Tuesday from a few days' visit spent at Carlsland.

Mr. and Mrs. Frame and son of Brant visited with Mr. and Mrs. F. Johnston on Sunday.

Rev. W. C. Lyle will preach in the united Church next Sunday morning.

Mr. and Mrs. E. Lewenden and family, and Chester Beagle returned Monday morning from their motor trip in the mountains.

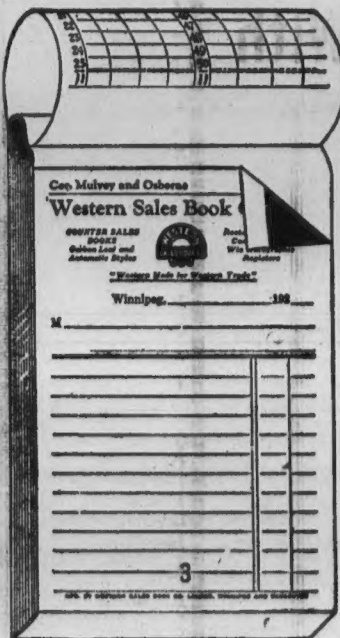

In all things it is better to hope than to despair.—Goethe.

## BASKETBALL

(Continued from page 1)

ful shots, many of which proved baskets. Edna delighted the crowd with a long shot giving Arrowwood 2 more points. Sarah fought to the finish, never giving her forward a chance to shoot. Owing to a sore foot Dorothy was unable to play for long. With the help of Edna and Sarah on the guard line, together with the shots made by the forwards, the game ended 11-6 in Arrowwood's favor.

Those playing were: Jean MacLeod, c.; Irma Army, r.f.; Mildred Kauffmah, l.f.; Sarah Duncan, r.g.; Edna Beagle, l.g.; Dorothy Brown, sub.

## The WAGIN' TUNG

Vol. 1, No. 47 Arrowwood, July 7, 1932 Items for Thought

## Fire!

Some time ago several of our citizens were selected as heads of our chemical engines. We are wondering if a fire broke out, how well would each one know his place. Would it not be well to kindle a bonfire and try out the fire-fighters?

The harvest rush is fast approaching us. Are you getting lined up for it? It's far better to be waiting for the harvest than to have the harvest waiting for you.

See us early for your necessary repairs and equipment.

Village Parson: "May I ask to which religious denomination you subscribe?"

Newcomer: "I'm an Abestologist."

Parson: "And what, pray, do they believe?"

Newcomer: "That if one sins often enough the soul becomes fireproof."

Bring in your grease cans and have them filled from bulk at reduced quantity prices.

## Ice, Ice

These hot days you may have been wishing for some ice for various purposes. You can get all of this cooling medium that you want as long as the supply lasts.

Autolene—the life saver for gasoline engines—quality and satisfaction at moderate prices.

Don't forget that the machine companies are offering you the equivalent of 77c per bushel for your wheat on the purchase of new machinery.

Yours for service and quality—

Ours for your patronage.
